TG-HW-000304 20" x 8 $\frac{1}{4}$ " x 4 $\frac{3}{4}$ " (500 x 210 x 120 mm)

Autoclavable Sterile Tray Box used to hold Orthopedic, Microsurgery, Cardiac surgery
Ophthalmic Surgery Instruments Available in customize sizes and colors .
Produced from 1050 Quality H24 Aluminium . 130° to 135° Temperature Sterilize

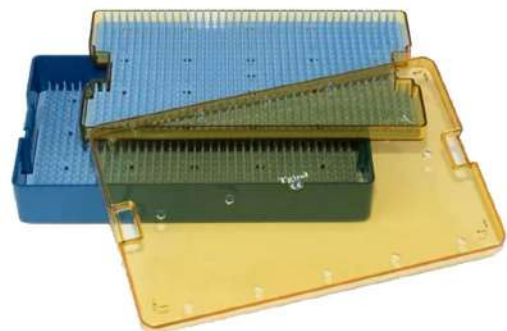

Standard Tray, Deep base, Insert Tray, Lid & 2 Silicone Mats

Width x Length x Height

TG-HW-000305 6.0 X 10.0 X 1.5"

These features make PST Plastic Sterilization Trays better for sterilizing your surgical instruments.
Flexibility of layout. Either finger-tip mats or special, "plug-in" inserts for individual instruments.
Unique, "grid" system in all bases, trays and lids, making it easy to install the mat or insert required to protect your instruments properly.
Stackable trays. Integral feet in bases and corner ridges on lids allow for easier handling in autoclaves and storage.
All bases have pebble-type surface to keep mats from sticking.
Dimensions of each tray are designed to accommodate a variety of instrument sizes and shapes.
Sterilizable by all standard methods of sterilization.
